Addis Ababa, Ethiopia | +251-928-887-951 | [LinkedIn](#) | [Portfolio](#) | [Email](#)

## EDUCATION

### Addis Ababa University

Bachelor of Science in Physics

Addis Ababa, Ethiopia

Sep. 2025 - June 2029 (Expected)

- SGPA: 3.61/4.0

## LEADERSHIPS & INVOLVEMENTS

### Ethiopian Space Science Society

Addis Ababa, Ethiopia

Team Lead - Citizen Science Projects

Dec. 2025 - Present

- Coordinate citizen science projects, manage email communication, announcements, and engagement with the International Asteroid Search Collaboration, oversee the progress of projects, organize onboarding sessions for new participants, and host virtual and in-person training sessions.
- Gave training to more than 195 participants in the past months in Asteroid Search, for school students and young professionals.

Stargazing Coordinator - Stargazing Coordinators Program

Dec. 2025 - Present

- Trained in handling Explore Scientific 150/750 EQ and Bresser Nano AR 70 700 AZ Telescopes. I participate in outreaches in schools and events as a telescope operator with other coordinators.

Student Researcher | Team Lead

Feb. 2025 - Dec. 2025

- Requested and managed telescope observation time through the LCO network for supernova observations, processed calibrated astronomical images and performed photometric analysis on a Type Ia supernova using AstrolImageJ.
- Received guidance from Shadow the Scientists Program, UCSC, and local professionals in the field. A preprint of our paper is available on [Zenodo](#).

### Zooniverse

Remote

Volunteer

Aug. 2024 - Present

- Contributed to the classification and analysis of more than 200 celestial objects under Galaxy Zoo, Daily Minor Planet, Backyard Worlds: Planet 9, and Enigmatic Near-Earth Visitors projects.

### PULSAR Education

Addis Ababa, Ethiopia

Founder & CEO

Aug. 2025 - Present

- Building a student-led platform for science communication, outreach, and opportunities, a growing platform with more than 2.7K followers across social media platforms. More than 20 articles and blogs published through student contribution.

### Ethiopian Space Science and Geospatial Institute | FASESA

Hybrid

Narrator, Script Writer, Co-video editor - Pathways to Space program 2025

May 2025 - Sep. 2025

- Collaborated in a team documentary project focused on space exploration, human spaceflight, and future space technologies. Participated in workshops and training sessions on human support systems in space, mission control operations, and VR-based spacecraft docking simulations led by international experts.

## SKILLS & INTERESTS

**Tools:** AstrolImageJ, Astrometrica, Siril, GIMP, WordPress, LaTeX

**Hobbies:** Hiking, Long walks...
